## PROJECTS

### Extraordinary is adding little extra to ordinary ...

Since 1988, SIMA LABS is one of the leading players in the field of environment protection & pollution control. Three decades of experience & application of latest technologies are reflected in the product design which are developed for the challenging water & waste water treatment scenario in India. We have commissioning more than 1800+ projects successfully on Pan India basis.

### SIMA SPECIALISES IN TURNKEY SOLUTIONS

- Sewage treatment plants & Effluent treatment plants
- Recycling plants
- Zero liquid discharge plants & MEE
- Septage Treatment Plant
- Solid Waste Management Facilities

## AMC

### High performance requires extra inputs . . .

SIMA LABS is a veteran in the industry for environmental compliances. Today, we are a trusted source of providing technical manpower, catering to the needs of large & small installed environmental utilities. We provide our own trained manpower round the clock to ensure the uninterrupted running of ETP, STP, CETP & MEE. Today, we are managing more than 80+ clients on Pan India basis.
